TO VOL. XIX,

ELECTRICAL REVIEW,

13 PARK ROW, NEW YORK.

AUGUST 29, 1891, TO FEBRUARY 20, 1892.

A WEEKLY RECORD OF THE PROGRESS OF ELECTRICAL SCIENCE.

ARTICLES MARKED * ARE ILLUSTRATED.

A

Abuse of the Word "Electric," 4
Albany Letter, Our, 5, 17, 93, 111, 125, 193, 207, 235, 247, 271, 283, 295, 319
American Association for the Advancement of Science, 5
An Invention Worthy of Munchausen, 9
Amateurs Organize, 12
Acme Lead Cable, 19
*Alternating Current Motor, 23
*Arc Lamp Manufacture, 27
*Annunciator, A New Needle, 31
Alternating Current Motors, by M. E. Hospitalier, 34
American Institute of Electrical Engineers, 37, 77, 83, 111, 138, 140, 155, 187, 250, 259, 281, 333
American Street Railway Association, The, 37, 68, 83, 124, 135, 138, 150
Armstrong, Judge, before the N. E. L. A., 38
Alabama Polytechnic Institute, The, 63, 236
Ayer, James I., "Some Details of the Care and Management of an Arc Light System as Practiced in the Municipal of St. Louis," page 7 of the Supplement of Sept. 19
*Accumulators in Private Installations for Electric Lighting, Charging, 69
Air Gap in Dynamos, The, 101
Armington & Sim's Engine House, 107
Arc Lights, Novel Uses of, by C. J. H. Woodbury, 110
Antiquity of the Telephone, 112
Accident at the Carnival of the Priests of Pallas, 121
*Alexander, Barney & Chapin's Electric Railway Lamp, 131
American Street Railway Association's Tenth Annual Meeting, 135
Animals Tamed by Electricity, 137
Alternating Current Machines at the Frankfort Exposition, 171
American Society of Mechanical Engineers, 171, 178, 189
American Electrical Works Diamond Drilling, 175
Accident on St. Paul & Minneapolis Road, 178
A New Face, 178
American Bell Telephone Co., 178, 180
*Ancient and Modern Electroliers, 184
Advantage of the Electric Railway, 189
Among the Press Workers, 221
American Chemical Society, The, 225, 255
*Arc Electric Coal Cutter, 223
Ammeter, A Big, 232
American Institute Electrical Section, 235
Aerial Navigation. The Problem of, 239
Advertisers, To, 244
American Electrical Works, 245, 273
*Anti-Induction Device for Telephone Circuits, 248
Astoria Electrical Manufacturing Co., 250
Annual Report of Attorney-General Miller, 253
A. B. C., 254
Africa to Have a Thorough Electrical System, 267
Address Wanted, 271
Arc Lamp Suit, Brush, 301
Advertising, Some Words from London "*Engineering*," 306
Arc Lamp, The Double Carbon, 317
Across the Continent Once Every Week, 329
Adam & Co., J. N., Electrical Equipment of their Store, 342
*Arc Light Station of the U. S. Electric Light Co., 347
About Ourselves, 354
*American Electrical Works During the Past Decade, 359
Aluminium Brass and Bronze Co., 361

B

Boston Opinions on the Incandescent Lamp Situation, 3
Boston Letter, Our, 5, 69, 95, 111, 125, 139, 153, 167, 179, 193, 207, 221, 247, 259, 271, 283, 295, 307, 319, 331
Biddle, J. G., on Newspaper Advertising, 11
Bath Bosch Electric Lights, 17
*Brill & Co.'s New Cars, 20
*Ball Cross Compound Engine, 21
*Battery, Sealed Chloride of Silver, 23
Blasting by Electricity, 25
Board of Electrical Control, The, 27, 177
*Bryant Electric Switches, The, 30
Brooklyn & Coney Island R. R. Co., The, 32, 189, 262
Buffalo Next, 40
Berlin, Elevated Roads for, 61
*Brush Apparatus, New, 64
Burleigh, J. J., Uniformity in Method of Keeping Central Station Accounts, page 6 of the Supplement of September 19
Baldwin Locomotive Works, 65
Brewing, Electricity in, 78
Bennett's Parcel Exchange System, 78
Blake Patent in Great Britain, 81
*Bradley's Alternating Current Motor, 81
*Berlin Iron Bridge Co's New Plant, 83
*Belknap Motor Co's Coffee Mill, 87
Boston Y. M. C. A. Lectures, 87
Berlin Iron Bridge Co. Shipment to Brazil, 93
*Boiler, The Seller Water Tube, 100
*Bernstein Waterproof Socket, The, 103
*Bain Electric Light Plant, 104
Book Review, 105, 359
*Bunnell & Co's, J. H., Pocket Galvanometer Battery Gauge, 115
*Battery, The Gladiator Dry, 118
Boston's New Lighting Station, 135
*Battery, Edison's Carbon, 140
Behring Strait Telegraphic System, 149, 237
Bulkley, Merwin J., 152
Battery, The "Champion," 154
Belgian Electrical Commissioner Visits Us, A, 166
Benedict & Burnham Mfg. Co's Weatherproof Wire, 167
Berlin Electric Lighting, 171
Buffalo & Tonawanda Electric Railway, 175
*Boston Bridge Works, 177, 263
Barking at Shadows, 178
Boston Electric Club, 181, 248, 269
Bridgeport Brass Co., 183
Bartlett & Co., 183
Bell Telephone Stock, 191
Bishop, J. D., on Mirror Galvanometers, 192
*Berliner Patent, The, 192, 194, 207
*Bishop, J. D., Practical Notes on the Reflecting Galvanometer and its Accessories, 192, 196, 213, 227, 240, 245, 256, 267, 280, 300, 305, 315, 334
Berlin Electric Railways, 203
Brooklyn Institute, 203
*Bradley's Synchronous Telegraph, 204
*Brown & Sharpe Mfg. Co., 204
*Berlin Telephone Exchange, A, 208
Brush Is Ahead, 217
Bids for City Lighting, 238
Bradley, Chas. S., Returns from Europe, 243
Blake, Prof. L. I., Lecturing at Topeka, 253
Better Than Ever This Year, 255
Burton Electric Co., The, 256
Brooklyn a Well Lighted City, 258
Bug on the Quad, A, 264
Brownie Book, Another
Barrett, J. P., before the Chicago Electric Club, 269
Brush Electric Co., 273, 306, 308
Brooklyn's Proposed Electric Road, 280
Brooklyn Trolley Question, 82, 182, 258, 262, 270, 282, 292, 294, 306, 318
Buffalo Electrical Society, 290, 315
Brush Arc Lamp Suit, Another, 301
British Physical Society, The, 303
Boston Horse and the Electric Car, The, A poem, 309
*Brill's Maximum Traction Truck, 310
Baltimore Tunnel, The New, 311
Belts, The Care of the Dynamo, 316, 318
Boston's Electric Lighting Companies, 317
Brush Electric Co's Arc Lamp, 317
*Burton Electrical Forging System, The, 322
Binks and the Telephone, 323
Brush-Swan Electric Co., Decree in Favor of the, 328
*Brown & Sharpe's Plain Milling Machine, 334
*Buffalo, Sketch of the City of, 341
Bishop Gutta Percha Co., N. Y., 342
*Broesel House, Buffalo, Electric Light Plant, 344
*Brush Electric Co., Buffalo, 345
Buffalo Engineering Co., 346
*Bell Telephone Co of Buffalo, The, 346
*Bickford & Francis Belting Co., The, 347
*Bracken, Wm., "The Storage Battery," 359
Barrett, John A., "Ten Years with the Telephone," 360

New Books

Electricity for Engineers.

(REVISED EDITION.)

By CHARLES DESMOND.

A clear and comprehensive treatise on the principles, construction and operation of Dynamos, Motors, Lamps, Indicators and Measuring Instruments. Also, a full explanation of the electrical terms used in the work.

Cloth, 156 pages. Price, $2.50.

Central Station Management AND FINANCE.

By H. A. FOSTER.

A valuable practical book for Central Station Men and Electrical Engineers. Every Electric Light Man should read it. Forms and Blanks for Central Station Use. Plans for Central Station Organization.

Price, Paper, $1.00. Cloth, $1.50.

Wiring for Motor Circuits.

By THOS. G. GRIER.

A handy little pamphlet containing tables for wiring, and for Motor service, arranged in convenient form for ready reference.

16 Pages. Price, 50 Cents.

THIRD EDITION.

The Electric Motor and its Applications.

By T. C. MARTIN and J. WETZLER.
New and greatly enlarged edition, with an appendix By DR. LOUIS BELL

A work which has gained a deservedly prominent place in electrical literature today, a book of reference as well as a popular history of the state of the art. The Electric Motor in all its various applications is fully treated upon in a complete and practical manner.

NUMEROUS ILLUSTRATIONS.

315 Pages. Price, $3.00.

. . A . .

PRACTICAL TREATISE ON THE Incandescent Lamp.

By J. E. RANDALL.

Its origin, development, manufacture and future.

NUMEROUS ILLUSTRATIONS.

82 Pages. Price, 50 Cents.

Electric Toy Making

FOR AMATEURS.

By T. O'CONOR SLOANE.

Including Batteries, Magnets, Motors, Miscellaneous Toys and Dynamo Construction.

ILLUSTRATED.

140 Pages. Price, $1.00.

Electric Transmission

HAND-BOOK.

By F. B. BADT.

Of interest to owners of water and steam power plants, agents of electric power and hydraulic companies, engineers of power transmission stations, motor inspectors, etc., etc.

ILLUSTRATED.

97 Pages. Price, $1.00.

The Electrician's Primers.

A series of helpful Primers on Electrical Subjects, for the use of Students and General Readers. Describes in simple and correct language the present state of electrical knowledge. Each primer is short and complete in itself. Theoretical discussion is avoided, the principal facts being stated and made clear by reference to the uses to which they have been put. Both volumes suited to readers having little previous acquaintance with the subject. Of use in schools and colleges, and of great service to mechanics and other workers in the field of electricity.

ILLUSTRATED.

Two Volumes. Price, $1.00 per Volume.

SENT TO ANY ADDRESS ON RECEIPT OF PRICE.

Electrical Review Pub. Co.

13 PARK ROW,

P. O. Box 3329. NEW YORK.

Dynamo Construction.

By JOHN W. URQUHART.

A practical hand-book for the use of Engineers, Constructors and Electricians in charge, embracing Framework Building, Field, Magnet and Armature Winding and Grouping, Compounding, etc.

ILLUSTRATED.

352 Pages. Price, $3.00.
